## **DETAILED ACTION**

### ***Response to Amendment***

This action is in response to Applicant's amendment filed December 4, 2008.

Claims 4-14, 18-28 and 32-42 are pending in the present application.

### ***Examiner's Amendment***

On September 11, 2007, Applicant's representative Michael Cannatti (Reg. No. 34,791), authorized Examiner to amend claim 32 to recite "computer readable **storage** medium" to overcome the 101 rejection by Examiner's amendment.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The preamble of claim 32 is hereby amended to read: a computer program product in a computer readable **storage** medium ...

### ***Specification***

The disclosure is objected to because of the following informalities:.

The specification must be amended in such a way that it is consistent with the language of the claims and in order to remove any 35 U.S.C. 101 statutory issues in claims 32-42. Specifically, page 156, lines 25, it is suggested that the term "computer readable media" be amended to read as "computer storage medium" as suggested by the Examiner in the Office Action mailed 11/27/07. Also, it is suggested that "paper" and "transmission-type media, such as digital and analog communication links" in lines 26-29 be deleted from the specification.

Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 4-14, 18-28 and 32-42 have been rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in the previous Office action. These claims are now in condition for allowance.

Examiner contacted Applicant's representative on Feb. 28, 2008 in an effort to put the application in condition for allowance by Examiner's Amendment. However, Examiner was unable to reach Applicant. Examiner is unable to amend the specification without Applicant's explicit permission.

### ***Conclusion***

This application is in condition for allowance except for the following formal matters:

inconsistent language in the specification with the claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
